

NATM Green Manufacturing Award

Awarded to an NATM trailer manufacturing member company who has made significant contributions to improving the environmental impact within the trailer industry.

Company Name _____

Address _____

Contact Name _____

Contact Phone _____

Contact Email _____

Submit a written description of the company's contributions to positively impacting the environment in the trailer manufacturing industry.

The document should provide qualitative and quantitative evidence of environment improvements. NATM trailer manufacturing companies will be judged on case studies where the companies have been able to demonstrate improved performance in environmental manufacturing. This may include maximizing energy efficiency levels, compliance with environmental regulations and minimizing waste from the production process. Manufacturers should be able to illustrate success in reducing their environmental impact, as well as converting green manufacturing into a business opportunity. The Environmental Protection Agency (EPA) has several useful documents that may support the company's effort under their Lean Manufacturing and Environment Series. These documents can be found on the EPA Web site at www.epa.gov/lean and are *The Lean and Environment Toolkit*, *The Lean and Energy Toolkit*, *the Lean and Chemicals Toolkit*, and *The Environmental Professional's Guide to Lean & Six Sigma*.

For further information, contact Kendra Ansley, executive director, at Kendra.Ansley@NATM.com or (785) 272-4433.
